Subject: Re: Lighter Shipment to Lincoln

Sensitivity: Confidential

Deborah,

Thanks for the update.

I also wanted to let you know what I found out about the Group 1 and 1L1 chip change out that occurred last week. Our pharmacy tech told me that kits 126-135 were received and three of those (132, 133, and 134) did not get initiated so 136-138 were handed out.

13 total (handed out and not) for Group 1.

Group 1L1 was given 100-125 and during their return, the pharmacy also checked out 11 new kits to replace those that Bob had problems with.

Bob took four kits back with him that were never checked out to anyone.

41 total (handed out or not) for Group 1L1.

That makes a grand total of 54 kits.

Thanks
Kim
